VERSA-LOK®

BRONCO 18H

Retaining Wall System

The heavyweight segmental wall system from VERSA-LOK® — with the heft and coverage to tackle demanding retaining wall projects. Bronco 18H offers near-vertical construction, variable-bond versatility, and multiple unit depths for walls with excavation constraints.

Applications

Commercial & Infrastructure

Tall retaining walls, gravity walls, reinforced walls, and excavation-constrained sites

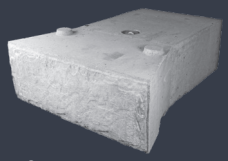

Individual Units

24″ Deep Unit
1,200 lbs.

41″ Deep Unit
2,210 lbs.

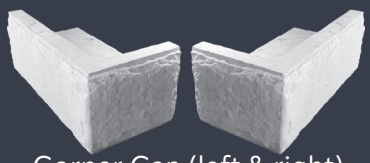

60″ Deep Unit
3,185 lbs.

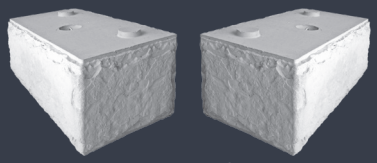

Cap Unit
900 lbs.

Half Unit
720 lbs.

Corner Cap (left & right)
1,070 lbs.

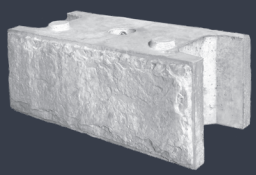

Corner Unit (left & right)
1,415 lbs.

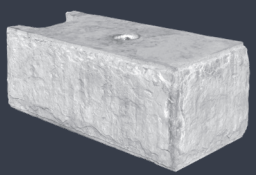

Universal Flat Cap
550 lbs.

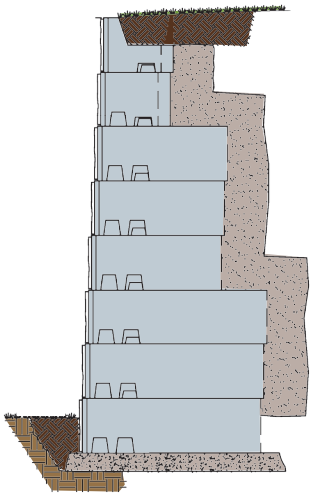

Freestanding Half Unit
670 lbs.

Freestanding Unit
1,290 lbs.

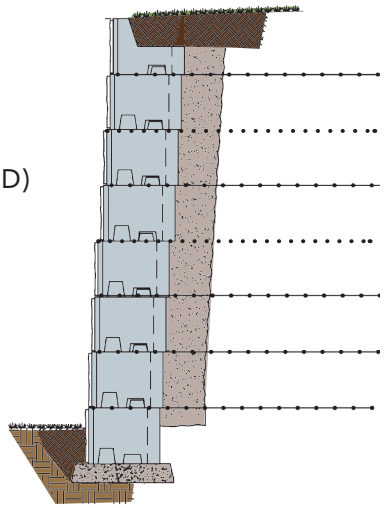

Freestanding End Unit
1,345 lbs.

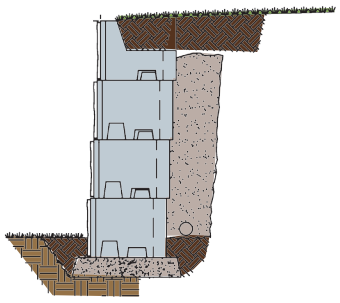

Gravity Wall
Extended Depth Units*

*Maximum height of 6ft. to 15 ft. depending on unit depths and site conditions

Reinforced Wall
24″ Units VERSA-GRID)

Gravity Wall
24″ Units** (No Grid)

**Maximum height of 5 ft. depending on site conditions
